SKELLY WEB DEVELOPMENT BRANCH INTERNSHIP ASSIGNMENT

DECEMBER 2021
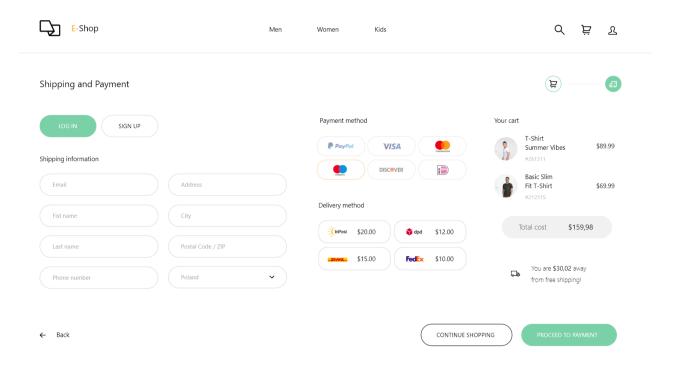

Respected candidate,

Please find here the assignment for the internship for the sake of the internship recruitment process. This will help us assess your skills and performance among your fellow candidates and accordingly help us shortlist candidates for the internship.

This assignment is really important for shortlisting process, so please do not ignore this or copy material from any other source. Any candidate found involved in plagiarism of any sorts, or found sharing this assignment outside would be liable to be rejected.

Note: You will be awarded a certificate of internship, and a stipend of 20K/month for a period of 30 days, when selected for this job

INSTRUCTIONS FOR ASSIGNMENT:

A. Given above is a payment page for an ecommerce site.
B. Code the Front End for the website designed in the above image
C. Use ReactJS for the front end development.
D. Make sure to create a clear distinction between the various folders like assets, components, context etc. and write your code in a neat and clean manner with clear indentation and compartmentalization.
E. Ensure that you add a ReadMe file during submission clearly giving instructions on how to run the code.
F. **NOTE: You have to only create this single page, nothing else. Only the Login feature is expected**

to be functional, but if you could incorporate the functional code for the payment button (e.g. RazorPay is quite easy to incorporate) additional bonus points will be given.

SUBMISSION OF ASSIGNMENT:

Push your complete front end code to your GitHub repository and make it public, and share the link with us.

All the best!!!

Skelly Team
